

NORTHERN UTAH ACADEMY FOR MATH, ENGINEERING & SCIENCE

1-23-2023

To Whom It May Concern:

It is with distinct pleasure that I write a letter of recommendation on Emma Thomas's behalf. She is a bright, dedicated student who gives her academic, leadership, and community life intense focus and energy. Emma enrolled in my AP European History and CE 1700, American Civilizations courses at NUAMES Early College High School. Her classroom contributions were significant and varied. She took a leadership role in group projects and supplied provocative insight during class discussions. I could always count on Emma to engage diverse perspectives and add measured feedback. She gave every task 110%.

Emma enrolled in rigorous courses to prepare her for a successful academic career. She will graduate with her Associate's Degree before the end of her senior year at NUAMES Early College High School. She took difficult classes such as AP European History, Chemistry, Computer Science, drawing, painting, and was involved in debate for two years.

She served on the school choir, has performed for school and community musicals, and plays piano. Emma won first place in a poetry contest, second place in a TedX school version, and has served her community as a member of the National Honors Society.

She traveled to Europe with myself and others last summer. Emma handled new surroundings and setbacks with confidence and flexibility. She communicated with others and found alternatives when original plans fell through. She is kind and generous with others.

Emma communicates high expectations of herself and in turn encourages others to do the same. She accomplishes any task placed before her with great initiative and a very positive attitude.

I highly recommend Emma Thomas for any pursuit to which she sets her mind and passion. She is an outstanding person and student. If you have further questions with regard to her background or qualifications, please do not hesitate to contact me.

Sincerely,

Diana LeBaron Bass
AP and CE History Teacher, NUAMES Early College High School
